

PAGAN TEMPLES

Visitors to pagan temples would have sex with enslaved prostitutes

by the Egyptian Hagar, who lived apart from the tribes of Yisharal, and became pagans. A corner of the Kaba has a black touchstone with a vagina-shaped object representing Hagar's vagina, the mother of Yishmaal. Babel's *mother goddess* is in this. **Asherah** was the moon deity of the kananites, and Yericho was a major seat of her followers. **Asherah** and **Allah** are essentially the same deity. Muhammad declared Allah to be the greatest (of the deities). The **moon symbol** is prominent in this religion. Islam means *submission*. Muhammad was born in the midst of the pagan Arabs, and his clan watched over the Kaba, a cube roughly 35 feet on each side. Inside the cube were hundreds of idols, worshipped by means of cult prostitutes who "serviced" those who made pilgrimages to Mecca. They would "**circumambulate**" (walk around) the cubical building, just as the Hindus circumambulate around their temples called **stupas**. The **May Pole** custom exhibits fertility

in a similar way, using virginal girls holding **ribbons** (hymen symbols) to rotate a **wreath** (vagina) downward on a **wooden pole** (asherah).

Yahuah hates these practices.

The writings of Islam are called the Koran, or Quran, from the Hebrew word **qara**, *proclaim*.

Yishmaalites and Yisharalites are both Hebrews, and are brothers, yet they fight over the land given to Abraham's offspring. Their main point of conflict is who they worship. Internally, the Sunni and Shia have been fighting non-stop. The Romans conquered Yahudah and destroyed the Temple in 70 CE.

Vespasian named the land *Palestine*, a Latinism for **Philistia** (the former site of the *Philistines*) a region that was visited by Abraham.

When Arabs refer to themselves as **Palestinians**, they label themselves *Philistines*. They do this making it seem their claim to the land pre-dates the tribes of Yisharal. Genesis 21:34 states "**Abraham sojourned in the land of the Philistines many days.**"

Obviously, Abraham wasn't a Philistine, so neither were **Yitshaq** or **Yishmaal**. Yishmaal was half Egyptian, because Hagar was Egyptian. Arabs are children of Abraham (a Hebrew), not the Philistines. Islamic fruit shows it is not of Yahuah.

WHO IS ALLAH?

ONE IN FOUR PEOPLE (1.6 BILLION) SERVE THIS DEITY

The Arabic language gives us insight into the **phonology** of original Hebrew. These two languages are very closely related, as are the people speaking the languages. One group was chosen by Yahuah in a Covenant of love to draw all mankind to Himself in love.

The other followed another path:

"And the Messenger of Yahuah said to her, 'See, you are conceiving and bearing a son, and shall call his name Yishmaal, because Yahuah has heard your affliction. And he is to be a wild man, his hand against every one and every one's hand against him, and dwell over against all his brothers.'" - Gen. 16:11-12

WE HAVE TO SERVE SOMEBODY

"And now, fear Yahuah, serve Him in perfection and in truth, and put away the mighty ones which your fathers served beyond the River and in Mitsrayim, and serve Yahuah! "And if it seems evil in your eyes to serve Yahuah choose for yourselves this day whom you are going to serve, whether the mighty ones which your fathers served that were beyond the River, or the mighty ones of the Amorites, in whose land you dwell. But I and my house, we serve Yahuah." - Yahusha/Joshua 24:14-15

ALAH - THE HEBREW ORIGIN

There is confusion about the term **ALAH** (alef-lamed-hay) because it is mistaken to be a proper noun, or name of a deity. Alah is a Hebrew term, and is **not a name**. Alah is the pronoun the Muslims call an ancient moon deity. Al, Alah, and Alahim (**aka ELAH**) are pronouns understood to mean **the god**. The root **AL** is spelled alef-lamed, for **upwardness, exalted, mighty, high, above**, etc.,.

The language of the descendants of Yishmaal is very close to that of their father, Abraham. The **crescent moon** symbol has been taken to symbolize a faith group called **Islam** since the 7th century. Worshipping things in "**the heavens above**" is prohibited by the 2nd Commandment. We should never bow-down to any images.

The **worship of the host of heaven** (zodiac, constellations) has always been a stumbling-block for the nations. The symbol of a **crescent Moon** shown beneath the Sun is a common image used throughout history. In plain sight on the US Great Seal, the lower banner forms a **crescent**. The nations bowed to symbols of their deities, and referred to them in coded, secret terminology. They would not openly use the name of their deity. The nations inherited their patterns of behavior from Babel's **worship of the host of heaven**. (See book, *Nimrod's Secret Identity*) The **crescent moon symbol** is the

NIMROD TRINITIES EXPRESSED IN PERSIAN, CELTIC, HINDU, AND EGYPTIAN CULTURES

prominent image for the Islamic faith. Adherents are trained to bow to a building in Mecca (Makkah, meaning destruction or slaughter in Hebrew) containing images of the host of heaven. These have sexual symbolism associated with them. Babel's fertility practices have filled the planet with idolatry.

THE LANGUAGE OF ABRAHIM

Arabs retain a much more accurate phonology of Hebrew (the language of Eber and Abraham) because they've always spoken it. They were never scattered into the nations to corrupt their speech. They name their children proper Hebrew names like **Danial, Yusef, Yakub, Tamar, Zara, Ashah, Aliyah, Aquila, Daud**, and dozens more. They preserve the Hebrew name **Ali**, which was distorted slightly by the Masorete's vowels.

Today it is commonly seen as **Eli**. Their spiritual practices and customs are highly idolatrous. Any bowing to images is an abomination. The moon deity of Muhammad's clan was highly preferred. He claimed Allah "the greatest." The term **alah** may refer to any deity, it is not a proper noun (a name). It's still a clean Hebrew word, spelled ALEF-LAMED-HAY. It is found more often in the **book of Danial** than any other place in Scripture.

Their **alah** (god) is not our **Alah** (God). We should know that the term "God" originates as a pagan term, in fact a name for the **Sun**. It was adopted from Teutonic pagans by Christianity and applied to the Supreme Being. The 1945 Encyclopedia Americana

has this to say under to topic **GOD**: "**GOD (god) Common Teutonic word for personal object of religious worship, formerly applicable to super-human beings of heathen myth; on conversion of Teutonic races to Christianity, term was applied to Supreme Being.**"

The first "super-human" ever worshipped was Nimrod, Babel's Great Architect, the builder of the Tower. The point is: we should not use the term "god" because of its origin; but we may restore the term **alah** to our speech in its place. The term has nothing to do with Islam, the moon, crescents, or kneeling face down on a mat facing Makkah.

THEIR ALLAH IS NOT OUR ALAH Yahuah Alahim is not Allah the moon deity of the Kaba (cube). It's called the **house of Allah**.

All Muslims know the term **Allah** is not a name, but a pronoun meaning "**the god**." First let's learn a little more about the Hebrew origin of the word **alah**. Restoring the letter **A** to Alahim (**seen as Elohim**) does not associate the word (**alef-lamed-hay**) with **Islam**, although that may be a normal person's initial reaction. In the 8th century, a new sect called **Karaites** or **Masoretes** altered the **sound** of the letter **alef** (A) to **ayin** (E) using niqqud markings they had invented to bend the pronunciation of vowels. This sect began with **Anan Ben David** in 767, who also adopted the **sighted moon** (crescent-sighting) of the Muslims while under a Muslim-

Caliphate in the city of Babylon. In 767 Anan was imprisoned to be executed for rebellion, but the Islamic Caliph in Babylon spared his life because he distinguished himself from his Yahidim brethren by adopting the sighted-moon of the Muslims. This new sect, the Masoretes (*traditionalists*) did not want anyone to properly speak the four vowels of the Name **YOD-HAY-UAU-HAY** (Yahuah), so they invented *vowel distortions* with niqqud and cantillation marks to re-train readers of Hebrew to **mispronounce certain words**.

ALAHIM became **ELOHIM**.

YAHU became **YEHO**.

They left the name **ABRAHIM** alone, otherwise it would be **EBRAHIM** for everyone today. The Hebrew root **AL** (alef-lamed) became **EL**.

This root is not a name of any kind, it is a pronoun concerning one who is lofty, upward, above, high, strong, mighty, etc.,. Israel's airline is **EL-AL**.

EL-AL means *to go upward*.

EL-AL is spelled **ayin-lamed** (EL) + **alef-lamed** (AL).

Yahuah Alahim means: "**I WAS, I AM, I WILL BE (your) MIGHTY ONE.**"

Their Allah is not our Alah.

We do not bow down to symbols or objects representing the host of heaven. It's idolatry.

TRINITARIAN ORIGINS: BABEL

The triangle and triquetra in religious imagery represents the principles of **creation, preservation, and destruction**. Babel's Trinity, Nimrod, Semiramis, and Tammuz are reflected in the Hindu trinity of Brahma, Vishnu, and

Shiva. A better rendering is **Sheba**. Amun, Re, and Ptah became the Egyptian triad. Sumeria's astrology, the worship of the host of heaven, was inherited by every culture. Trinities, fertility symbols, human sacrifices, reincarnation, and much more leaven spread Babel's idolatry far and wide.

REINCARNATION ORIGIN

The cycle of "rebirth" (reincarnation) originates from Babel's trinity, Nimrod, Semiramis, and Tammuz. After their king Nimrod was slain, their mythology taught that he ascended high into the heavens to become the Sun. His wife/mother, Semiramis, was found to carry his child by having been impregnated by the rays of the Sun. Tammuz was born as Nimrod *reincarnated*.

We serve only Yahuah, the Maker of heaven and earth. Pagans worship in the ways of Nimrod, Semiramis, and Tammuz, the first beast.

The Hindu trinity reveals Allah to be the same as Shiva, the destroyer.

The Kaba is the original site of a sex temple. The ancient Hindu temple is in operation, complete with worshippers doing everything demanded, including **circumambulation** (walking-around in a circle) around the object of worship.

IT'S LIKE THE SEVENTH CENTURY

Up until the time of Mohammad, the Arabs worshipped hundreds of deities. The big black box called the **Kaba** (Arabic for **cube**) was filled with 360 images of their deities, one of which was called "Allah" - a **moon deity**. The Arabs are the children of Abraham
